

# TODDLER PLAY IDEAS

A baby sensory play area with the theme of Noah

Harvest and Creation Play area

Play area on the theme of Noah

Playing with The Good Shepherd

Other bible stories and free play

Jonah

These are themed play areas which include items for free play, story books and ways to explore the bible stories individually or with others.

There is a range of items enabling children to use different senses to explore, with many different textures used. You could also add different pieces of material to be used for dressing up.

Each area is quite easy to put together and most are inexpensive with many of the items easily sourced. You do not need to create all the areas at once but one at a time using the church year as your guide. For example, one for Easter, then Harvest and then one for Christmas. The other themes could be introduced throughout the year, one at a time. Noah is an easy one to start with!

Exploring Church through play
